

AP4STM

S Y S T E M

Security tailor-made
to meet your needs

Protect your home
and the people
you love.

**ACCESS TO YOUR HOME
MUST BE PROTECTED**
against the rising number
of burglaries and the most
sophisticated techniques of
forcing entry.

+5.9 %
In a year

Every 2 minutes, one home in Italy is
burglarised: that is over 600 a day
according to CENSIS*.

* www.censis.it

The solution for you is

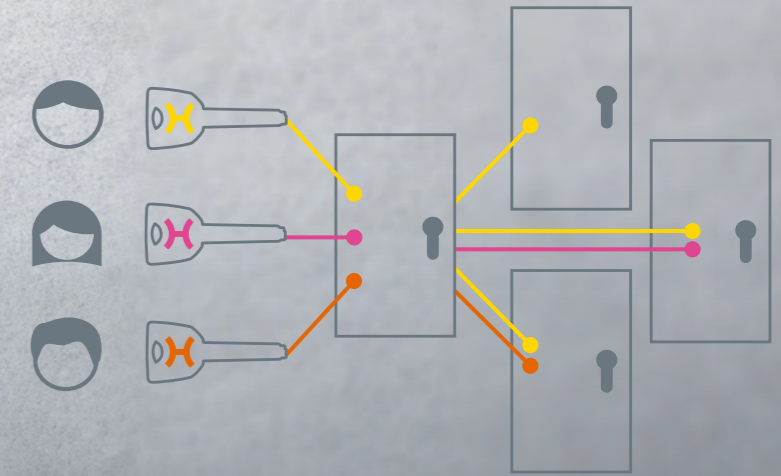

AP4STM
SYSTEM

**LATEST
GENERATION SYSTEM**
with a patented cylinder
which meets the highest
security standards and
ensures protected key
duplication.

All our solutions are geared to you.

CISA HAS MADE HOMES MORE SECURE WITH 1 MILLION HIGH SECURITY CYLINDERS AND 4 MILLION HIGH SECURITY KEYS*.

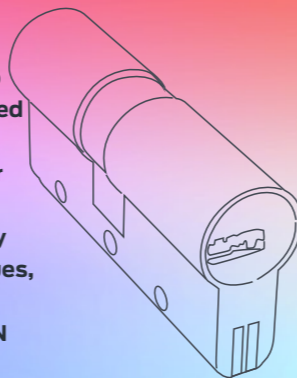

AP4 S the right choice for a safe, happy home.

TIME IS EVERYTHING

The longer it takes for a burglar to force open a door, the more inclined he will be to give up.

This is why your choice of cylinder is fundamental.

AP4 S is certified against a variety of breaking and entering techniques, and has achieved the highest levels of resistance required by EN 1303:2015.

PROTECT YOUR HOUSE KEYS

The safety of your home also depends on your keys: it is important to know how many keys are in circulation to prevent unauthorised use.

CISA AP4 S ONE KEY is protected and comes with a Security Card: you can only get a new key if you present it at an authorised CISA Solution Partner, preventing uncontrolled duplication.

NO MORE HUGE BUNCHES OF KEYS

Personalise access. Now you can open several different doors, gates and garages with the same key and decide who to grant access to.

Make your CISA ONE KEY instantly recognisable and unique by personalising it with one of the 15 coloured inserts available.

* Figures refer to the past 15 years for CISA AP3 S and RS3 S cylinders and keys.

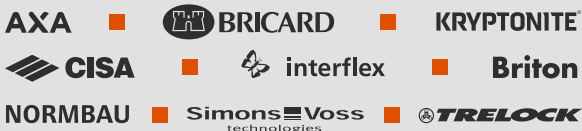

PUT SECURITY FIRST WITH CISA.

Learn more about AP4 S at the Cisa Solution Partner nearest you and visit the key duplication section on cisa.com
